

GB740

SERIES INSTALLATION TOOL

DESCRIPTION

The GB740 is a heavy-duty, high speed production tool specifically designed for a wide range of blind rivets. It weighs only 6.5 pounds and can be operated in any position with one hand. With the use of a pneumatic-hydraulic system, it develops a pull load of 2,400 pounds at 90 psi (6.2 bar) and has a 1.330" (33.78mm) stroke.

The GB740 riveter operates on 90 to 100 psi. (6.2-6.9 bar) of air pressure, with 90 psi (6.2 bar) providing the maximum efficiency. At 90 psi (6.2 bar), the GB740 does not exceed 85 dB(A) and consumes 6 cfm at 20 cycles per minute.

The air inlet is provided with 1/4-18 female pipe thread for accepting the user's air hose fitting.

NOSE ASSEMBLIES ARE NOT FURNISHED WITH THIS RIVETER AND MUST BE ORDERED SEPARATELY.
